Summary

Front-End Developer with 2+ years of experience in **React.js**, **Redux**, **JavaScript**, and **Tailwind CSS**. Skilled in building responsive, high-performance web applications and optimizing user experience. Proven ability to improve application performance and reduce load times. Passionate about clean code, continuous learning, and delivering innovative solutions that meet business objectives.

Technical Skills

Front-End Development: React.js, Redux, Redux Thunk, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS.

Back-end(Basics): Node.js, Express.js, MySQL, RESTful APIs.

Deployment & Version Control: Git, GitHub, Netlify.

Testing & Performance: Jest, React Testing Library, Webpack, Vite, npm, Babel.

Additional Libraries: React Router, React Hook Form, Material-UI, Axios, Yup, Recharts, jsPDF.

Experience

Massmutual India

August 2022 – Present

Analyst - Front-end Developer

Hyderabad, India

- Engineered scalable web applications using **React.js**, **Redux**, **Axios**, and **Tailwind CSS**, delivering key solutions like the **MM Client Dashboard** and **MM ID Generator**, supporting over **50,000 users**.
- Optimized app performance by reducing re-renders by **30%** and improving load times by **25%** through **lazy loading**, **pagination**, and **code splitting**, enhancing data handling and ensuring a seamless user experience.
- Led **15+ code reviews**, mentored **3 junior developers**, and accelerated project delivery by **20%** by implementing efficient practices and adopting new technologies.
- Collaborated cross-functionally with **designers**, **product managers**, and **backend teams**, solving complex technical issues and delivering features that improved user satisfaction by **35%**, while meeting tight deadlines and exceeding project goals.

Professional Projects

MM Client Dashboard | *React.js, Redux, Axios, Recharts, JavaScript, Tailwind CSS, HTML*

- Developed a dynamic client dashboard with **React.js**, **Axios** for data fetching, and **React Router** for navigation. Implemented role-based access control to enhance security, boosting performance by **25%**.
- Utilized **Recharts** for data visualization, improving presentation speed by **25%**, and employed **Redux** with **Redux Thunks** to manage state and optimize API interactions, reducing response time by **30%**. Integrated **JWT** for secure authentication and user authorization.
- Enhanced performance using **React.memo** to minimize re-renders by **30%**, and applied **lazy loading**, **pagination**, and **code splitting** for faster load times and improved user experience.

MM ID Generator | *React.js, Axios, React Hook Form, Yup, HTML, Tailwind CSS*

- Built an ID generator web app with **React.js** and **React Hook Form** for efficient form handling, increasing data entry accuracy by **20%** with real-time validation using **Yup**.
- Integrated **Axios** to ensure seamless communication with the backend, improving data retrieval speed by **15%**.
- Styled the interface with **Tailwind CSS**, ensuring responsiveness and boosting user engagement by **25%**.

Personal Projects

E-commerce Website | *React.js, Redux, JavaScript, Axios, Tailwind CSS, JWT, HTML*

- Created a feature-rich e-commerce platform using **React.js** and **Redux**, enabling smooth navigation between product pages, cart, and checkout, resulting in a **30% increase in user engagement**.
- Optimized state management and component performance with **useReducer** and **useEffect**, decreasing re-renders by **25%**.
- Streamlined **API communication** with **Axios** and implemented secure **JWT authentication**, improving login speed by **20%** and ensuring secure transactions.
- Developed a dynamic filtering system for **10,000+ products**, cutting search times by **15%** and enhancing SEO performance.

Expense Tracking Web app | *React.js, JavaScript, React Hooks, HTML*

- Developed an Expense Tracker application using **React** and **Context API**, increasing global state management efficiency by **20%**.
- Implemented **React Router** for seamless navigation and **Suspense** for code splitting, reducing initial load time by **15%**.
- Utilized **localStorage** for persistent data, ensuring data retention across reloads, and styled with **Styled Components**, improving user retention by **30%**.

Soft Skills

- Problem Solving, Communication, Teamwork, Leadership, Adaptability, Time Management, Troubleshooting, Collaboration, Critical Thinking, Flexibility, Innovative Solutions, Cross-functional Cooperation.

Education

Vardhaman College Of Engineering

Bachelor of Technology in Computer Science

July 2018 – July 2022

Hyderabad, Telangana
